EDUCATIONAL PROGRAMS

Lakeshore State Park is home to many educational programs both private and public. This unique destination is perfect for field trips, groups, and even individuals that want to increase their connection with Milwaukee's natural spaces!

Overview of Group Offerings

Lakeshore State Park offers a variety of educational experiences for learners of all ages. These hands-on experiences can be tailored to fit your content and group needs.

This park provides a unique opportunity to observe wetland, freshwater, short grass prairie, and long grass prairie habitats all within 22 acres! A large number of wildlife call this place home and create the diverse and beautiful park that it is.

Programming at LSP emphasizes sustainability and stewardship of our freshwater resources through themes like Lake Michigan Exploration where students will learn how to test the water quality, catch macroinvertebrates, and discuss the importance of the Great Lakes.
